

ENGINEER TECHNOLOGY/MECHATRONICS (M/F/D)

We are looking for support for our customer in the field of product development in Heidenau near Hamburg. The company is breaking new ground in the field of intralogistics with its automated guided vehicles (AGVs) and automated tigger trains.

Do you think innovatively and would like to work with our customers to advance the new and further development of future oriented products? Then you have come to the right place!

STELLE: FULLTIME

STANDORT: HEIDENAU

STARTZEITPUNKT:IMMEDIATLY

YOUR RESPONSIBILITIES

- You enthusiastically support new developments with regards to buildability, costs and manufacturing efficiency.
- You actively participate in the creation of prototypes and support both the developers and the production staff.
- The product manager can count on you to develop new features and to change costumer's requests regarding the AGV's.
- You enjoy developing changes for series products and ensuring that they are documented.
- You are responsible for testing and releasing the series products.
- You coordinate the 3rd-Level-Support.

ENGINEER TECHNOLOGY/MECHATRONICS (M/F/D)

WHAT YOU BRING TO THE TABLE

- You at least have a completed training in mechanical engineering or a comparable training as well as professional experiences.
- Ideally, you have completed a further training to become an industrial master or a state certificated technician- but this is not a must have.
- You can score points with your enthusiasm for technology and your interest in mechanics and electronic components.
- A basic understanding of control processes makes your start easier.
- You impress with your communicative and solution-oriented nature and clearly see yourself as a team player who tackles challenges together.
- Knowledge of German and English as well as the confident use of MS Office are also part of your profile.

WHAT OUR COSTUMER OFFERS

- A Nordic corporate culture is practiced here, where people treat each other as equals.
- This involves sharing of experiences, teamwork and mutual support.
- Our costumer offers you an exciting and challenging job in an innovative and future orientated environment.
- Your individual and personal development is encouraged.
- You will receive a company laptop.
- Free supply of mineral water and coffee as well as a lunch break in the countryside round off your working day.

Menschen sehen. Schätze finden.

Als branchenunabhängige Personalberatung leben wir unseren Leitsatz Verbindlichkeit, Freundlichkeit und offene Kommunikation sind für uns die Schlüssel, um mit unseren Kund:innen und Kandidat:innen auf Augenhöhe in Richtung eines gemeinsamen Erfolges zu arbeiten. Dabei nehmen wir die Bedürfnisse und Wünsche unserer Kandidat: innen ernst.
